

## Technical Data Sheet

**1.PRODUCT NAME:** Optical Brightener Agent OB

C.I.: Fluorescent brightener 184

CAS : 7128-64-5

MOLECULAR FORMULA

### 2.SPECIFICATIONS

Item	Index
Appearance	Light yellow powder
Ash	0.03%
Penetration	450nm 98.0%
	500nm 99.1%
Content	99.80%
Melting point	201.1-202.2℃
Volatile	0.24%

Poorly soluble in water, soluble in alkane, mineral oil, and common organic solvents.

### 3.PACKING

25KG fiber drum lined with double-layer plastic bag

### 4.APPLICATION

in whitening and brightening PVC, polystyrene, polyethylene, polypropylene, thermoplastic plastic, ABS, cellulose acetate fiber, coating, paint, ink, etc.

### 5.TRANSPORTATION

Avoid inversion, sunlight, moisture and crash. Avoid damage the package.

### 6.STORAGE

Should be stored in cool, dry and ventilate place, and storage term should not exceed 2 years.
